of dictating  
equipment.

# The Time-Master with Dictabelt Visible Record

# The Time-Master with Dictabelt Reusable Record

# Other New Ideas from Dictaphone that can save you time

## TRAVEL-MASTER Portable

The Dictabelt recorder that runs anywhere you do on modern rechargeable batteries. Compact and rugged it's light enough for in suitcase travel, yet big enough for the important jobs you give it. 15 or 30 minutes of recording, ease-of-use controls and full fidelity recording.

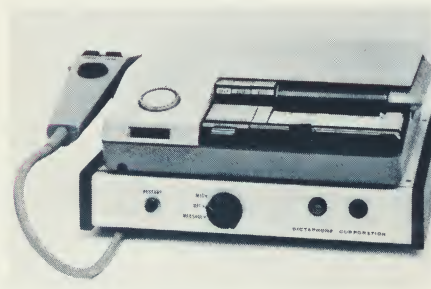

## NEW DICTAMITE Portable

Here's the recorder that's designed for extensive out of office use. Tiny 60 minute tape cartridge lets you keep a running report on daily activities. Dictamite weighs only 31 ounces and has push button controls on top for ease when using while on the go.

## DICTAPHONE TELECORD SYSTEMS

Many offices with increased staffs are using network dictation to phone correspondence to central recording area. A planned Dictaphone survey might point the way to important savings.

## TELEPHONE ANSWERING SYSTEM

The new dictating machine idea that takes care of your business while you're not there. It's designed to: answer the telephone; playback a prerecorded message to the caller; take the caller's message; hang-up when through.

Dictaphone's vast systems knowledge enables you to get the system and the program most effective for you.

# The Time-Master with Dictabelt Visible Record

**has easy-to-see sound grooves  
so your place is always obvi-  
ous. Can't be erased, even  
accidentally.**

- The original, one-time use dictating medium developed by Dictaphone that changed an entire industry.
- Offers low cost—less than ½ ¢ a letter.
- Can be mailed or filed for future use.
- Loads and unloads in a second.
- Gives you 15 or 30 minutes of effortless dictation.
- Compact enough to take little room on your desk; light enough to take home.

**HERE'S HOW EITHER TIME-MASTER CAN SPEED UP  
YOUR ROUTINE PAPERWORK AND FREE YOU FOR MORE  
PRODUCTIVE BUSINESS:**

1. Take care of desk work and answer correspondence more quickly. Dictate whenever you like, before or after working hours; at your office desk or at home. Add to your productive hours considerably.
2. Leaves your secretary free for typing, which can double her output.
3. Many satisfied Dictaphone users find they save as much as one-third of a day. The more your time is worth, the more money you can save.
4. Gain increased accuracy in transcribing. Whatever you dictate is typed right the first time.
5. Dictate immediate ideas, observations and comments.
6. Record conferences and enjoy greater recall of facts. There's no chance of mis-reading notes.

**BOTH DICTAPHONE TIME-MASTER MODELS LET YOU  
CONCENTRATE ON THE JOB, NOT ON THE CONTROLS.**

- Both have unmatched microphone sensitivity and give you clear, distinct playback.
- Both feature unique power loading. Just a touch and the Dictabelt snaps into position in front where you can always see it.
- Both use the exclusive roll-feed indication system, giving you easy error-insurance.
- Both have controls located front and center, for greatest possible convenience.
- Lightweight power microphone fits in the palm of your hand and gives remote control of start-stop, letter length, corrections, back space and playback.
- More versatile, with more automatic features than any other dictating machine.
- Designed by world famous Raymond Loewy/William Snaith, Inc., either new Time-Master adds to the appearance of any office.
